

Training in rules and regulations for lifting and hoisting

According to the European directive 2009/104/EC, in the Netherlands retrieved in the working conditions Decree (Arbobesluit) article 7.18 member 9, lifting and hoisting operations shall be carried out under proper supervision. Virtually any company that regularly has to deal with lifting and hoisting is familiar with procedures that must be followed. In compliance with the working conditions Decree someone who is responsible for the lifting and hoisting operations shall be appointed: the "Appointed Person". Within the international Oil & Gas industry also called "Person In Charge".

According to the same working conditions Decree, article 7.18 Member 8 it is a legal requirement that all actions for the lifting and hoisting shall be properly planned and carried out in such a way as to protect the safety of workers.

To be able to comply with these legal obligations, it is important that the "Appointed Person" has sufficient knowledge in the field of planning, management measures for safe execution, people, resources and circumstances.

12hoist4u organises courses that meet this required knowledge.

Target audience

The training is important for everyone who holds responsibility for the execution of lifting and hoisting operations. In addition, the training also provide insight to many legal aspects that work knowledge widening for other functions in which one having to deal with lifting and hoisting. For example: logistics coordinators, planners, lifting supervisors, contract holders, buyers of lifting and hoisting equipment, HSE coordinators, HSE staff, incidents investigators, constructors of work equipment, job owners, maintenance managers etc.

Content and program

The training has a structured building, where using a variety of very recognizable practice cases proceeds to the next learning objectives:

- Structure of the legislation in the Netherlands in relation to EU legislation
- Lifting – and hoisting equipment: legislation upon purchase, use and during maintenance
- Competence requirements of employees
- Planning and supervision of vertical transport in compliance with the legal provisions
- Working conditions Decree (Arbobesluit): work equipment and specific work.

In consultation, and if requested well in advance, your practice case can be evaluated.

Award and revalidation

Each participant will receive a certificate "Person In Charge", rules and regulations for hoisting and lifting. This course must be refreshed every 5 years. Also, the Personal Safety Logbook will be stamped.
